

ITALY, MONT BLANC RANGE

# Mont Vert de Greuvetta Group: 72810 Autumn Vibes

## RATING/DIFFICULTY:

- » D 5b, Trad, 420 m climbing distance, 300 m vertical elevation.

## LOCATION/ACCESS:

- » Grooves and ramps right of Via del Carletto finishing direct up the front face of the summit tower right of the prominent gully that cleaves the upper face. Start 200m of Via del Carletto below a wide and fractured right facing corner ramp. The route climbs the right edge of the ramp. 10 min. approach from Comino hut to the obvious ramp.

## EQUIPMENT/GEAR:

- » C4-Camalots 0.3–3.0, 1 set of Stoppers, slings, 50m double ropes.

## NOTE:

No water access at Comino hut. You can collect water at a stream about 30 min. west of the hut. There is moderate 4G reception about 15 min. west of the hut near the black-yellow pole for emergency calls.

## FIRST ASCENT:

- » Micha Rinn (Germany) and Simon Richardson (Scotland), 30 September 2020.

ITALY, MONT BLANC RANGE

# Mont Vert de Greuvetta Group: 72810 Autumn Vibes

## ROUTE DESCRIPTION:

1. 40m 5a climb the narrow groove to a flake on the left and climb up to a ledge on the left in the centre of the ramp.
2. 50m 5a move right onto the arête on the right, step right around a bulge and continue up the Arete to near its top. Small flake belay.
3. 30m 5b from the top of the Arete climb a short corner and step left around a big flake-block and move up to belay on a ledge below a prominent black notch cutting the steep wall above.
4. 40m 5b climb steeply right of the notch on big holds and continue straight up cracks and flakes to easier ground.
5. 40m 5a climb right to reach the edge of the slabs to gain a hidden tight facing narrow corner ramp. Climb this to a ledge.
6. 50m 5a continue up the ramp to its top at a wide grassy terrace.
7. 50m 5b climb grassy slabs on good holds trending right to a prominent block on the edge of the slabs. Move right around the corner and follow short delicate ramps to a belay on the right side of the prominent grassy gully that cuts the upper part of the face.
8. 50m 5a move diagonally right for 15m on blocky ground then climb straight up the steep pillar above on excellent holds.
9. 40m 5b continue up to a steep right facing corner and then move up easing ground on good holds to a ledge on the left
10. 30m 4c move left then right on brittle rock up a short ramp to a notch. Finish easily on excellent rock to the summit.

## DECENT:

- » Abseil Via del Carletto on bolted belays (2 x 50m ropes required).

ITALY, MONT BLANC RANGE

# Mont Vert de Greuvetta Group: How to get down of P2810

## ROUTE DESCRIPTION FOR DESCENT:

- » One option to descent from P2810m is by abseiling down the bolted belays of Via del Carletto on the south face. The anchors can be difficult to find from above, so a full descent description follows below.
- » All directions are looking down, facing out. Allow at least two hours.
- » From the summit of P2810m walk 30m to a sharp pinnacled ridge descending south-west. Down climb the ridge for 40m to the first bolted belay, which is on the left.
- » Abseil 1: 20m. Straight down the gully below. The belay anchor is on the right.
- » Abseil 2, 50m. Directly down a slab. The belay anchor is on the left below a grassy terrace.
- » Abseils 3 to 5: 150m: The next three abseils follow the crest of the broad easy angled-buttruss below. The third belay anchor is on the right, the fourth is on the left (hidden in a left-facing corner), the fifth is on the right after crossing a small grassy notch.
- » Abseil 6: 40m: Directly down a steep slab. The belay anchor is on the right.
- » Abseil 7: 50m: Continue straight down an overhanging wall with the belay anchor hidden under a roof on the right.
- » Abseils 8 to 9, 80m: The two final abseils are straightforward down the slabs below.

## EQUIPMENT/GEAR:

- » Two 50m ropes are required.
